IDENTIFIERS *New York

ABSTRACT

This report provides data on the resources and expenditures of libraries in 160 state institutions in New York for the year 1985-86 and in 171 institutions for 1986-87. Six state departments are represented: Correctional Services, Education, Health, Mental Health, Youth, and the Office of Mental Retardation and Developmental Disabilities. Data include: (1) total residential population; (2) print materials beginning, added, and total; (3) nonprint materials; (4) total holdings; (5) subscriptions; (6) interloan transactions; (7) circulation; (8) hours open/week; (9) percent of population with direct access; (10) paid professional staff; (11) paid support staff; (12) salaries; (13) expenditures for materials; (14) expenditures for materials per capita; (15) other expenditures; and (16) total expenditures. A comparative summary of library expenditures in New York State institutions for 1979 to 1987 is broken down by department. A list of abbreviations, a map of public library systems, a directory of state institution libraries, a list of the location of institutions by public library system, and a copy of the library annual report form are appended. PREFACE

This edition of Institution Libraries: Statistics provides data on resources and expenditures of libraries in 160 State institutions in New York State for the year 1985-1986 and 171 institutions for 1986-87. This directory does not include institutions operated by counties, cities or private agencies. Information about state correctional services camps has been deleted from this edition. Information listed in Appendix III, Directory of State Institution Libraries and Appendix IV, Location of State Institutions by Public Library System is current as of 1987.

Information contained in this publication was provided by the librarians or other officials of the respective Departments. Some institutions are listed even though no statistical information was reported by them. Except for minor adjustments for internal consistency and correction of mathematical errors, statistical data are presented as reported. This publication contains a comparative summary chart on page 22 for data from 1979 through 1987.

We trust this publication will be of use to librarians, administrators and others concerned with library service to persons in institutions operated by the State of New York.

Comments on Institution Libraries: Statistics or suggestions for useful data to be included would be welcome and should be addressed to:

Bernard Finney
Institution Library Consultant
